THE LEDGER'S BASEBALL FAN!

Points in the Game Played Yesterday Afternoon at Maysville's Handsome New Park.

Singles, doubles, three-baggers and home runs were as thick as flies around a molasses barrel in the second game of the series between the Local team and the Hamilton Browns at East End Park yesterday afternoon.

Those that like to see a slugger match got their money's worth and some to spare.

The game our boys put up in the field with one or two exceptions had a very "yellow" hue.

Little dingy flies that should have been easy outs were allowed to fall safe.

It was enough to take the heart out of any pitcher, and Miller was no exception.

He went all to pieces in the fifth and Wellner's warriors jumped on to him with both feet.

Miller was succeeded by Rieman in the seventh.

One little scratch hit was the best the visitors could do with him.

Reynolds twirled for the visitors, but after the Locals had pounded him all over the lot in the first five innings and scored eleven runs, Wellner concluded he could do better than that, and he did.

Tenley's home run drive in the fifth was the only redeeming feature in the game.

Gray transacted business right at the jump by driving one into right for three corners. J. Morton hit a hot one to first, Sutherland stopped it, but while he was looking for the bag Gray scored.

Our boys tallied twice in their half.

Cox's pop-up fly was captured by Reynolds. Curle hit a slow grounder to first for an out. Weber fumbled Hayes's daisy cutter and Eddie landed at first and stole second and scored on McGann's jolt into left for a bag. Mac pilfered second and scored on Rieman's single.

The Hamilton boys tied the score in the second.

Hartkoff singled after there was one gone, went to second on a wild pitch by Miller and scored on Ruble's single to center.

The Locals piled up four more runs in the third.

McGann took first on hit by pitched ball and went to third on Rieman's single. Wadsworth walked and the bags were loaded. Sutherland hit a corking single to center and two McGannites tallied. Miller fanned out. Tenley did likewise, but Gray missed the third one and then threw wild to first and two more Maysvillians crossed the counting line.

Three more runs in the fourth put us on Easy street.

Curle singled and stole second. Hayes fouled out. McGann cleared the circuit.

Fire Insurance—Duley & Baldwin.

The Fifth Ward Schoolhouse will be sold next Saturday. See advertisement.

Washington Fire Company has elected the following officers for the ensuing six months:

Vice-President—H. H. Newell.
Secretary—C. W. McClanahan.
Messenger—Charles H. Frank.
Chairman Standing Committee—Joseph Lowry.
Chief of Hose—Joseph Bode.

on a hit to center, sending Curle in before him. Rieman touched off a three-bagger and scored on Wadsworth's single past third.

The Hamiltonians tumbled to Miller's curves in the fifth and scored five runs.

Weber led off with a single. J. Morton's double sent him home. Then Miller made another wild pitch and Morton took third. Singles by Hartkoff, C. Morton and Ruble and errors by Curle and Hayes followed and four more Browns scored.

Our boys clinched victory in their half by sending two more men to the counting point.

Miller reached first on an error and trotted home ahead of Tenley, who had smashed one into center for a homer.

SHORT STOPS.

All the ginger we had on hand was used in Thursday's game.

Tenley is the champion long distance thrower in the K. U. League.

Wellner's boys show up well on the field, but they can't run bases a little bit.

Wellner has improved in his work since last season, but Taylor has gone backwards.

Ray Tenley is the hero of yesterday's game. With a man on base Ray laced out a "homer."

Gallipolis defeated Ashland at Gallipolis Thursday by a score of 7 to 6. Batteries—Kouns and Claggett, Canady and Zimmer.

Many and many a hit was chalked up against Miller yesterday that should have been an out. Our boys didn't seem to care about bothering themselves with anything that did not land smack in their hands.

THE NICHOLAS MAN.

Hon. Green R. Keller Nominated For Railroad Commissioner.

The Democratic Convention held at Winchester yesterday nominated Hon. Green R. Keller of Nicholas county as its candidate for Railroad Commissioner for the Third District.

The Convention also endorsed Cleveland, Carlisle and their currency views.

MISTAKEN IMPRESSIONS.

READ AND SEE IF YOU COME UNDER EITHER CLASS—A FEW POINTED REMARKS.

Every good thing must, it seems, have a difficult road to travel before it reaches the sunlight of success or the easy movement of new oiled machinery. The grandest enterprises of this or any other century have been achieved after laborious effort. The use of Herculean strength, and the demise from striving of many minds, the wizard of invention was laughed at because of his insane projecting with the electrical current. Fulton was considered a visionary boy for his useless waste of time in fooling with steam. Franklin was afraid to pursue his desire to understand lightning by day, covering his absurd conduct with the cloak of night, he worked alone with his hobby until he threw a lasso over the forked element and brought it down to earth for use. And so cases might be multiplied without number to substantiate the case in question; but as it is the desire of the writer to deal with our people and our interests he will proceed at once to show why there are these two mistakes and why they exist, then the remedy to apply if this fallacy is to be removed. The effort of a few very much interested young men in the organization of an institution which can only benefit our town has not met with the indorsement it should have had. The reason, we believe, is on account of two impressions abroad.

First—That class of citizens who call themselves Christians (and we include the Ministry) are laboring under a wrong—one which retards their progress and the progress of taking the world for Christ. Some will say, the Church can do the work; others, any outside organization is a channel flowing apart from the Church. As such it should not have the support of those who love Christ.

Now, the first objection is but a statement of fanaticism, bigotry, or a less charitable adjective used might fit better, but it is not our purpose to be argumentative, but rather educational.

The Church of God cannot be belittled by any human agency. The cornerstone of religion stands today, and will stand till time shall end, just where our Lord and Savior placed it 1900 years ago. There can arise no nobler institution, no grander body, than His bride—the Church. The point is not antagonism or opposition, but rather support, openings, whereby the thronging multitude seeking entrance may gain admittance. To this end, and for this end only, has the Lord put it into the hearts of His servants to build up Leagues, Endeavors, Brotherhoods, Sisterhoods, Young Men's Christian Associations and such other kindred religious bodies which are appendages to and are a necessary part of the Church. Ignorance of the real value of the later organization named is the greatest hindrance to the progress of this grand work in our city.

If those who oppose would pray for enlightenment, then pursue with diligence the desire, we feel that the standard of the Y. M. C. A. would have such a host of workers as would immediately take the world for Christ. A comparative statement brings the deadly parallel, which in itself is enough to brush away opposition.

Here is the Church.

Here are the dens of sin.

Here is the young man.

The latter young, active, sociable, enthusiastic. The Church opens its doors one day in seven for six hours and one night in each week for two hours. The dens of sin open their doors at 5 a. m. and close at 12 midnight every day in the year, minus a few hours in 365 days, which are allowed because of a sham effort to keep Sunday.

Now, in this style we could continue the parallel, drawing comparative statements from every side of life, but with a prayer that this class, to whom reference is made, may have their hearts freighted with this truth and their eyes opened to the perilous position of the rising generation, so that activity may characterize their effort rather than bring the weights to prevent success, so that a solid, united front of harmony, tranquility and genuine spirituality may characterize the people of God, that they may be indeed and in truth Christians.

The second wrong impression exists in the minds of those who are not members of the Church—young men and older ones who never go to the house of God. This class think the Young Men's Christian Association is an organization solely for Church members. A greater mistake never was made.

True, the Association is founded upon spirituality—this blessed pabulum supplies the table at which all are fed—but praise God, the broad platform of the Brotherhood of man holds up the Y. M. C. A. No denominational narrowness is taught within its wall, but the spirit of loyalty to man; no sectarian views are discriminated within her borders, but rather that charity of view which expands the horizon of thought until it

MRS. M. S. SCHOONMAKER.

A New York Woman Who Suffered For Four Years With Nervous Debility---Paine's Cel-Compound Made Her Well.

"For four years I was a sufferer from nervous debility. During that time I took a great many remedies without getting any help until I tried Paine's Celery Compound. I took six bottles of that remedy and was cured. I cheerfully recommend Paine's Celery Compound."

So writes Mrs. M. S. Schoonmaker of 80 1/2 Jane street, New York City.

Too many women needlessly suffer from nervous troubles, not only in the cities, but everywhere.

Their whole world too frequently lies inside the four walls of their homes.

Think of the many persons, men as well as women, who spend most of their lives barricaded within the narrow confines of their dwellings. Summer finds them pale and tired out. Their store of nervous vitality has been slowly brought down by vitiated air and sedentary life. Their whole system needs a thorough replenishing. The nerves want nourishment, the tissues are not half supplied with material for the repair of their parts, and the great vital organs must

have richer blood to make them sound and active, and to keep them so. The nerves and brain need nourishment.

The power of refreshing and reviving every part of the languid body is what makes Paine's Celery Compound the marvelous strengthener and invigorator of this century. It is this same capacity to recruit the worn-out nervous system, to rejuvenate the blood that has enabled this remarkable remedy to help so many debilitated persons and to restore them again to firm health.

Rheumatism, neuralgia, pain in the region of the heart, debility and nervous weakness, showing itself in any of its myriad forms, are dispelled by Paine's Celery Compound. It feeds enervated tissues all over the body. It gives fresh vigor to the entire nervous tract, the brain, the large nerve centers in the spinal cord and the nerves themselves to their minutest ramifications.

It restores faded nervous energy. It sends new blood coursing through the veins. It makes people well!

surrounds the universe in the sunlight of man's humanity to man. It seeks to inculcate, by actions of love and means of beneficence, the grand lessons which the Saviour taught when He walked among men and which are ours today, real, genuine, if we will but accept. No: the Young Men's Christian Association receives into membership any male who is worthy the name of man; be he Jew, Gentile, Church member or not. It seeks to propagate the seeds of good influence, morality, virtue, physical beauty and a spiritual nature, the latter the outgrowth of association and confederation, which are silently given by the men who influence and control the Young Men's Christian Association.
